

TRUST NEWSLETTER – AUG 2019

Snippets from the August Trust Meeting:

- The St John Demonstration for the Defibrillator was both informative and entertaining. Thank you again to the volunteers and also to the Social Club who kindly supplied a cuppa and eats. Hats off to Heather, who volunteered to do the AED demonstration on behalf of the residents (despite her tricky knee!)
- Norm Pratt chaired the meeting and it was quite a speedy one with not too much business to conduct.
- The Long Term Maintenance Programme as quoted by Asset Management Solutions will be discussed at the September meeting.
- Financials for year ended 30th June are still with the Accountant and upon completing their work, will be sent to the Auditors in Christchurch and fingers crossed, be back at least a fortnight before our APM.
- Spare a thought for Heather who has had some complications with her surgery and was unable to attend our meeting this month. Therefore, there is no Social Club newsletter for August. Get well soon Heather.
- Welcome Home Rory – it has been far too quiet without you.

That's all for now folks, I am off to warmer (and hopefully dryer) days on the Gold Coast for a couple of weeks.

Cheers, Phi

A man bumped into an old school friend at the store. The old friend started showing off, talking about his well paid job and expensive sports cars.

Then he pulled out his phone and showed to first man a photo of his wife and said: 'She's beautiful, isn't she?'

The man replied: 'If you think she's gorgeous, you should see my girlfriend.'

The old friend answered: 'Why? Is she a stunner?'

The man said: 'No, she's an optometrist.'
